An Impulse Biomed Innovation.

Easy Squeezy is a clinically proven asthma inhaler sleeve that reduces the force needed to activate your inhaler by **75%**, making inhalers up to **300% easier to squeeze** & improving quality of life!

for Inhalers

The SUPERPOWER

The Clinically Proven Sleeve that Transforms Inhaler Use.

Easy Squeezy® is a Clinically proven asthma inhaler sleeve that reduces activation force by up to 75%, making inhalers a massive 300% easier to squeeze and improving every patient's quality of life! Clinically tested to improve ease-of-use, No struggle. No hesitation. Just a smoother inhaler experience for anyone, any time. Whether you use an inhaler at school, work, gym or home, Easy Squeezy® supports confident inhaler use.

Making a Difference. One Breath at a Time.

300%

Easier to squeeze. Just a smoother inhaler experience for anyone, any time.

5yrs

Empowering independent inhaler use from a clinically proven 5 years of age.

98%

Of kids in our study loved their asthma pump more with the Easy Squeezy®.

The SUPERPOWER for Inhalers

Over 50% of patients use inhalers incorrectly, meaning treatment doesn't reach their lungs when it's needed most.

Tested for durability, good for over **2400** puffs guaranteed. Built for everyday use.

We are **SAHPRA registered**, and **ISO 13485 certified** - the global quality standard for medical device development and CE marked

PEACE OF MIND

KNOWING THAT LOVED ONES ARE OKAY WHEN YOU ARE NOT AROUND.

Designed for Real Life. Used by all ages.

Eco-Friendly & Reusable

Built from high-quality recyclable materials for lasting reliability and reduced waste.

User-Friendly

Engineered to make every activation easier.

Clinically Proven

Proven in children from 5 years and up - an unprecedented advancement - Easy Squeezy® sets a new usability standard.

Broad Compatibility

Easy Squeezy® is compatible with major inhaler brands such as Asthavent®, Ventolin® and Ciclovent® asthma inhalers.

First to Market Globally

Bringing novel asthma innovation and peace of mind to every breath.

A Clinically Validated Product

INCREASED PATIENT SATISFACTION AND EASE OF USE REPORTED ACROSS THE BOARD.

Published in the South African Medical Journal (SAMJ), showing significant increases in the Childhood Asthma Control Test (C-ACT) scores.

9% IMPROVEMENT IN CHILDHOOD ASTHMA CONTROL.

Published in the international Journal of Allergy and Clinical Immunology (JACI), showing stellar performance on the Paediatric Asthma Quality of Life (PAQL) questionnaires. Improvement in lung function was observed using a spirometer.

CLINICAL ENGAGEMENT WITH RESPIRATORY SPECIALISTS

Hundreds of clinicians and respiratory experts globally have evaluated Easy Squeezy® and expressed strong confidence.
